

RESPONSIBLE VISITORS CHARTER

Be a responsible visitor. Here are some things you can do to help save the planet and most importantly, have a great time when you are here; we'd like you to come back!

1. Conserve energy – Reduce energy by switching off lights and closing windows if heating is on.
2. Give the Car a Rest – Leave the car behind, if only for a day. Walk, cycle or use public transport.
3. Shop Local – Use local products, they give you a flavour of the area and help support local communities. We are fortunate to have some fantastic producers of food, drink, and arts and crafts in our region. Ask about local markets or local and regional organic produce.
4. Reduce, Reuse, Recycle – Try to avoid overly packaged goods and say no to that extra carrier bag. Clean and sort your recyclables for us to return to Sechelt recycling centre or drop them off yourself and see our innovative facility. See posted MMBC guidelines for acceptable materials or ask us. Compost your vegetable & fruit peelings in the container provided.
5. Be Water Wise – Please use water wisely. Turn off the tap when brushing your teeth and adhere to towel policies or other water saving initiatives.
6. Respect Nature – Help us to look after the landscape and wildlife by not littering, securing garbage, guarding against fire and using footpaths and cycle-ways responsibly.
7. Support Green Tourism Businesses – Hundreds of businesses trying to reduce their environmental impacts through the Green Tourism Canada. Businesses are awarded Bronze, Silver and Gold for their efforts to be more sustainable. See www.greentourismcanada.ca for more information.
